About the STAR Center at Blank Children's Hospital

The mission of the Blank Children's STAR Center (formerly the Regional Child Protection Center) is to work as a team with experts in child health, development, and welfare to provide services and support to children which increase their resiliency and improve their health and well-being. To fulfill this mission, the STAR Center houses a Child Advocacy Center, Drug Endangered Children Clinic, Growth and Nutrition Clinic and the Foster Care Clinic. At the STAR Center, we believe that every child deserves a happy and healthy childhood. We promise to provide services which help them get back on path to having one. The STAR Center is a unique community center designed to be child and adolescent friendly and trauma sensitive. Our staff are experts in child development and have a thorough understanding of how traumatic stress and Adverse Childhood Experiences may impact the health and well-being of children. With these principles in mind, our clinics work to increase a child's resiliency and improve their health and well-being.

Livestock Facility Biosecurity

Biosecurity is a set of preventative measures designed to reduce the risks for introduction and transmission of an infectious disease agent. The Iowa State Fair decontaminates and disinfects facilities used for livestock events. All cleaning and disinfection will be carried out so as to minimize or prevent the possible movement of diseases and pests on and off the fairgrounds premises. Disinfection will be carried out prior to every livestock event following the thorough cleaning of the previous event. The disinfectant product will be professionally applied by a company specializing in disease control in livestock facilities. Any participant in any livestock show that attempts to move into a facility before it has been properly disinfected; takes full responsibility for any and all disease that an animal may be exposed to, as well as any consequences that may lead to. The Iowa State Fair will to the best of our ability not allow entrance to any of our facilities until properly cleaned and disinfected.

Animal Health Examination Notification

All horses and other livestock that enter the grounds, whether entered in an event or not, are subject to examination by event officials and/or State Animal Health Officials to determine whether such animals are, have been infected or exposed or are likely to be infected with an infectious or contagious disease. If after such examination, there is reason to believe an animal's health condition places other animals at risk, event officials may isolate such animal, and other animals that may have been infected or exposed. · All participants agree to fully cooperate with event officials and abide by their decisions/instructions. Failing to comply shall be grounds for immediate expulsion of the participant from the grounds and potential disciplinary action by organization, local/state or federal animal health officials. Routine Stall Cleaning and Decontamination of Vacated Stalls The Fairgrounds will follow guidelines in regards to cleaning post show from Basic Equine Facility Biosecurity from UC Davis Veterinary Medicine found here: http://www.chrb.ca.gov/misc_docs/biosecurity_2011.pdf Disinfectant Product Virkon® S; a multipurpose virucidal disinfectant with the greatest numbers of EPA registered claims against pathogens affecting domestic and companion animals.
